

FUTURA RANGE

HIGHLIGHTS

LONG LIFE AS A LUBRICATED PUMP, EASY MAINTENANCE AS AN OILLESS PUMP.

All FUTURA compressors feature a permanently lubricated pump that never requires any oil.

Innovative design.

Start-up at extremely low temperatures (-20°)
and low voltage, only 150 Volt.

Pressure switch
built-in for a more
compact design.

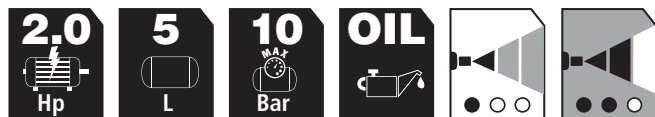

Lighter pump compared
to traditional designs.

NEW

FUTURA RANGE

HY 227/10/5

Additional features:

- Fully pump protected thanks to steel casing.
- Lightweight and compact 5-litre tank.
- Large, easy to read gauges.
- Rubber feet for enhanced stability during use.

Easy to transport thanks to the comfortable handle.

Tap ball valve with enlarged passage to avoid blocking and obstructions.

HY 227/8/6E

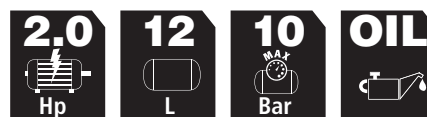

Additional features:

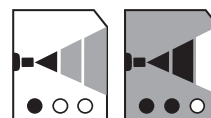

- Handle built into the crankcase for easy transport.
- Lightweight 6-litre tank.
- Rubber feet ensure excellent stability.

HY 227/10/12

This model has the same advantages of HY 227/10/5 with a 12-litre tank.

FUTURA RANGE

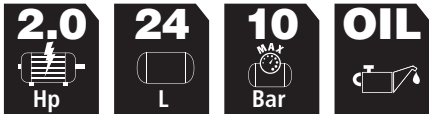

HY 227/10/24VE

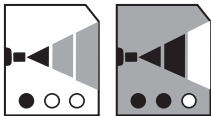

- Additional features:
- Handle built into the crankcase for easy transport.
 - Compact vertical 24-litre tank.
 - Simple, user friendly controls.
 - Rubber feet for enhanced stability during use.

HY 227/10/24V

- Additional features:
- Fully pump protected thanks to steel casing.
 - Sturdy handle with rubber grip ensures easy handling.
 - Compact vertical 24-litre tank.
 - Large, easy to read gauges.
 - Rubber feet for enhanced stability during use.

On / Off switch.

24-litre tank.
